

Ethernet over Copper

MEGAPATH WHOLESAL

HIGHLIGHTS

Cost Effective—More business-class bandwidth than T1 or Bonded T1 service at a much lower cost than a T1

Seamless Upgrade Path—MegaPath Ethernet over Copper scales with 8 different speeds from 2.0 Mbps to 20.0 Mbps

Simple—Easy online ordering, install, upgrade, and management

Converged Applications—Support for multiple applications like Voice over IP (VoIP), video, and MPLS VPNs

Ethernet over Copper Services from a Trusted Partner

Ethernet is rapidly becoming the preferred choice for wide-area broadband connectivity for businesses of all sizes. Organizations are adopting industry-standard Ethernet services as a cost-effective and reliable way to scale and support voice, data, and video convergence on a unified network. With MegaPath Ethernet over Copper (EoC) service, wholesale partners can now offer an Ethernet solution with up to 20.0 Mbps of symmetrical speed, leveraging MegaPath experience and expertise with broadband technologies.

ETHERNET NETWORK. MegaPath has built a brand new, state-of-the-art Ethernet network, introducing new broadband services using G.SHDSL technology. MegaPath owns and manages end-to-end network performance from the customer premises to the hand-off point, to Internet or to your network, providing you with a reliable platform for your end customer solutions.

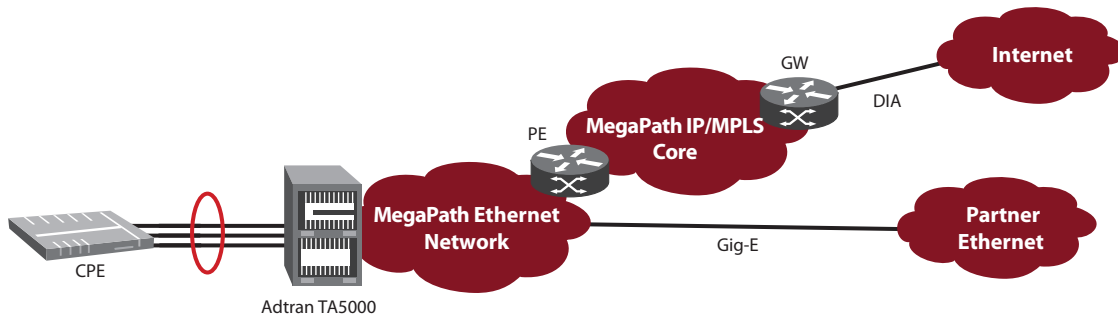

BUILT FOR BUSINESS. MegaPath has designed its Ethernet services to run business-class applications like Voice over IP (VoIP), video, and other business-critical data by providing multiple options for class of service (CoS) over a single connection. You have greater flexibility with three different CoS packages to address end-customers who have more advanced solution needs—options not available with a lot of other providers. MegaPath EoC service is backed by business-class SLAs and 24x7x365 customer support.

PORTFOLIO ENHANCEMENT. MegaPath EoC services represent an easy way to enter key markets across the country with multiple Ethernet bandwidth options at aggressive price points. Coupling these services with MegaPath's other offerings will enable a comprehensive portfolio across speeds up to 35 Mbps and up-sell opportunities across access types, depending on availability for specific end customers. Let MegaPath EoC drive both top-line and bottom-line enhancements to your financial performance.

MEGAPATH WHOLESALE

ETHERNET OVER COPPER NETWORK OVERVIEW

ACCESS SPEEDS	Symmetrical speeds of 2.0, 3.0, 5.0, 8.0, 10.0, 12.0, 15.0, and 20.0 Mbps.
SERVICE TYPE	Layer 2 and Layer 3 services.
ETHERNET QoS/CoS	Three MegaPath Ethernet Class of Service (CoS) options: <ul style="list-style-type: none"> • Bronze: Default MegaPath Class of Service (CoS). Suitable for best-effort Internet data • Silver: Suitable for combined business data and real-time data like voice and video • Gold: Designed primarily for real-time traffic only
ACCESS TYPES	Both DIA and Layer 2 connectivity options available on MegaPath EoC.
AGGREGATION OPTIONS	MegaPath EoC handoff on GigE backhaul port, IP Backhaul, Layer 3 NNI, or MPLS ICI.
INSTALLATION	Professional installation by a MegaPath technician.
SUPPORT	Live, specialized, dedicated support 24 x 7 x 365 including weekends, after hours and holidays.
TARGET METRICS	Installation interval: 20 calendar days MTTR: 4-hours Availability: 99.99% Layer 2 - Regional latency: 10-20 milliseconds based on Ethernet CoS level, National latency: 80 milliseconds Layer 3 - Latency: 80 milliseconds Packet Delivery 99.50-99.999% based on Ethernet CoS level
SLAS	Installation interval: 30 calendar days MTTR: 4-hours Availability: 99.99% Layer 2 - Regional latency: 10-20 milliseconds based on Ethernet CoS level, National latency: 80 milliseconds Layer 3 - Latency: 80 milliseconds Packet Delivery 99.50-99.999% based on Ethernet CoS level

COUNT ON MEGAPATH. From our nationwide coverage to our best-of-breed broadband services, we give you the rock-solid foundation you need to succeed. Our easy-to-use order management and trouble ticket systems simplify your business, and you can count on our support 24 x 7 year round. With over 12 years' experience, MegaPath has you covered.
